Join the  
**HD  
Convergence**

With over 35 years experience in video microwave links, MRC now brings you combined network IP and HD solutions for all your transport needs.

No one but MRC has the complete line of HD products for streamlining your workflow to capture, deliver, and distribute your HD content.

Did we mention the majority of STLs use MRC radios? Clearly, we've been at the forefront of HD transport with our TwinStream and DARPlus radios. And now our SCM4000 modem is one of the most diverse and flexible platforms for carrying large payloads.

Join the HD Convergence with MRC ...

Te esperamos a que te unas a la  
**Convergencia  
en HD**

Con mas de 35 años de experiencia en enlaces de microondas de video y audio, MRC te brinda ahora diferentes soluciones de combinar redes de IP con HD para satisfacer todas las necesidades de transporte de señales.

Unicamente mrc tiene la mas completa linea de productos de HD para la transmision de flujos para la captura, entrega y distribucion de su contenido de HD.

Mencionamos que la gran mayoría de enlaces de microondas utilizan la marca MRC? Claramente, hemos estado en la vanguardia de transporte de señales de HD con nuestros radios modelos TwinStream y DAR Plus, y ahora con nuestro modem SCM4000, es una de las flexibles plataformas para transportar grandes cantidades de informacion.

Unete a la convergencia de HD con MRC....

## Soluciones de clase mundial . . .

Usted no puede conformarse con menos que la solución de clase mundial de MRC. En MRC somos fabricantes de soluciones innovativas de sistemas de transporte de señales para aplicaciones de microondas. Le invitamos a que compruebe lo que nuestra tecnología puede hacer por usted.

Visite "www.mrcbroadcast.com" y obtenga su pase VIP GRATIS para que nos acompañe en la NAB2006, en donde estaremos demostrando lo más reciente en equipo de microondas para recepción de noticias.

**STRATA**

- Sistema Portátil de enlace vía Microondas
- Diseño modular de peso ligero
- Sistema Digital FM to COFDM/MPEG
- Ideal para transmisiones fijas en interiores, portátiles en Trípode, en Aviones o Instalaciones en vehículos terrestres

**CodeRunner 2**

- Sistema ENG para instalación en vehículos terrestres
- Sistema "dos cajas" que utiliza una antena RF con unidad de montaje
- Soporta una amplia gama de antenas orientables
- Compatible con HD/SD ASI

**LINK**

- Sistema de Cámara inalámbrica para ENG y Transmisión Estéreo
- Retraso mínimo de la señal de solamente 40ms
- Sistema Digital COFDM, MPEG 4:2:2
- Sistema receptor "top sensitivity" para una recepción robusta y múltiples áreas de cobertura

## World Class Solutions . . .

You can't afford to settle for anything less than MRC's world-class solutions. MRC manufactures innovative transport solutions for global applications. We invite you to experience what our technology can do for you.

Visit Booth #C2007 where we will be conducting live demonstrations of the latest microwave, satellite and wireless camera back technologies.

**Mantis**

- Lightweight carbon fiber design
- Multi-band operations
- IATA baggage compliant
- "Two Box" stores antenna & components

**LINK**

- Wireless camera system for ENG and outside broadcast
- Low signal delay of just 40ms
- Digital COFDM, MPEG 4:2:2 system
- Diversity receive system for robust reception and multiple area coverage

**SCM4000**

- Single Carrier Modem providing HD contribution rates of up to 105 Mbps
- Programmable occupied channel bandwidth
